01 FC:2253

510.00 OP

**IN THE SPECIFICATION**

Please substitute the text of the abstract with the following new text:

A method of visualizing a desired view of an object by a user using a computer,  
including the steps of: a) capturing images of the object as a sequence of images  
according to an image capturing sequence; b) encoding the sequence of images as  
video having video frames, each video frame tagged with viewing angle information
